DETAILED ACTION

Claims 1-8, 11-18, 21-23 and 27-29 are pending in this application.

Request for Continued Examination (RCE)

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on May 5, 2004 has been entered.

Action Summary

2. The rejection of claims 1-8, 11-18, 21-23 and 27-29 under 35 U.S.C. 102(b) as being anticipated by Jass et al. is hereby withdrawn as applicants amended the claim so that the formulation is a single formulation.

Double Patenting

The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

Art Unit: 1616

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

3. Claims 1-3, 5, 6 and 21 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1-5, 14, 16 and 18 of U.S. Patent No. 5,665,332. Although the conflicting claims are not identical, they are not patentably distinct from each other because both the instant application and the patent are directed towards a system for delivering a chemical agent comprising a chemical agent and an anionic surface-active agent in the form of a foam. The only difference between the instant application and the patent is the incorporation of a medicament. It is the position of the examiner that it would have been obvious to one of ordinary skill in the art to add a medicament to the composition for the purposes of imparting medicinal effects. For example, if composition is used as a dental composition one might incorporate fluoride as a medicament for the purposes of protecting teeth.

Response to Arguments

4. Applicant's arguments with respect to claims 1-8, 11-18, 21-23 and 27-29 have been considered but are moot in view of the new ground(s) of rejection.

Allowable Subject Matter

5. Claims 4, 7, 8, 22 and 23 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
6. Claims 11-18 and 27-29 are allowed.
